Address:

Clifton

Price:

2000.00 \$

I am selling my boat due to not having time to use it. I bought it in 2016 from a friend and bought the Tohatsu motor to put on it instead of the 5.0 Mercury motor(included)it had on it. The reason being the motor did not have a title. I do have both titles for the boat and the Tohatsu motor. The battery will need to be replaced and the motor hasn't been started in a while. I gave \$1500 for the boat and Mercury motor and \$2,500 for the Tohatsu motor. The NADAGuide still shows the motor being worth more than \$1,950.
