Selling as I bought the A7RIV and use this only sparingly. I pre-ordered this camera in 2017 and it has been well cared for since. Listed as "good" because the clicks are nearing 60K (camera is rated to 500K).

All artistic photos were taken with the listed camera to show its capabilities.

Comes with all of the components originally sold with the camera + memory card.

- A7RIII Camera Body
- Camera Strap
- Rechargeable Battery
- 128 GB Memory card (Type I), 95 MB/s
- Charger + Charging Cable
- Original Box
- Original User Manual
